I am a second-year student at NED University studying Computer and Information Systems. Proficient in Python, I am eager to expand my skills in this language. Despite being in the learning phase, I excel in multitasking and meeting deadlines. My interests lie in development, artificial intelligence, and data science, and I am actively researching these areas to further my career in technology.

## Education

- **Ned University Of Science & Technology** 2022 - Present  
**Bachelor of Computer Information System & Engineering (CGPA: 3.169)**
